Furguard shall provide coverage only for those risks, contingencies, illnesses, injuries, or liabilities that:

Where the cover operates on an indemnity basis, Furguard shall reimburse reasonable and customary veterinary expenses actually incurred by the Insured, subject to submission of satisfactory proof and documentation.

Where the cover operates on a benefit basis, Furguard shall pay the fixed benefit amount as specified in the Policy Schedule upon occurrence of the insured event, irrespective of the actual expenses incurred, unless otherwise stated.

SECTION 3: ELIGIBILITY & INSURABLE INTEREST

3.1 Eligibility of the Policyholder

This Policy may be issued to individuals residing within the territorial limits of India who are the lawful owners, custodians, or permanent guardians of domesticated dogs and/or cats. The proposer must have legal possession and control of the pet and must be financially responsible for its care, maintenance, and veterinary expenses.

The Policy is intended strictly for privately owned companion animals and shall not apply to pets maintained for commercial breeding farms, racing, organized fighting, laboratory use, or any other commercial exploitation unless expressly declared and accepted by Furguard in writing.

3.2 Insurable Interest

The Insured must possess a demonstrable insurable interest in the Insured Pet both:

- At the time of Policy inception; and
- At the time of occurrence of any insured event.

For the purpose of this Policy, insurable interest shall mean a lawful and substantial economic or emotional relationship whereby the Insured stands to suffer a direct financial loss or liability upon the injury, illness, death, or loss of the Insured Pet.

If at any time during the Policy Period the Insured transfers ownership, sells, gifts, or otherwise relinquishes legal or financial interest in the Insured Pet without prior written notification to Furguard, coverage under this Policy shall automatically cease from the date of such transfer, unless otherwise agreed and endorsed.

3.3 Eligibility of the Pet

To qualify for coverage under this Policy, the pet must satisfy all of the following conditions:

a) The pet must be a domesticated dog or cat kept primarily for companionship and residing at the address declared in the Policy Schedule.

b) The pet must not be classified as a prohibited, restricted, or dangerous breed under any applicable Central, State, or local law at the time of Policy issuance or during the Policy Period. If any breed becomes restricted or banned after Policy issuance, coverage may be reviewed in accordance with applicable regulations.

c) The pet must not be used primarily for illegal activities, including but not limited to organized fighting, unlawful breeding operations, criminal acts, or any activity in violation of animal welfare laws.

d) The pet must be accurately described in the proposal form, including but not limited to:

- Species
- Breed
- Age and date of birth (if known)
- Gender
- Identification marks
- Microchip/RFID details (if applicable)
- Vaccination history
- Medical history

Any misrepresentation or incorrect declaration relating to breed, age, health status, or prior medical history may result in denial of claims or cancellation of the Policy.

e) The pet must be in sound health at the time of proposal, unless pre-existing conditions are declared and specifically accepted by Furguard subject to applicable waiting periods or exclusions.

3.4 Disclosure of All Owned Pets

The proposer is required to disclose details of all dogs and cats owned at the time of application, irrespective of whether coverage is sought for each of them. This requirement exists to prevent adverse selection and ensure transparent underwriting assessment.

If the proposer chooses to insure only certain pets while withholding information about other pets owned, Furguard reserves the right to:

- Modify underwriting terms;
- Apply additional conditions;
- Reject claims arising from non-disclosure; or
- Void the Policy in cases of material misrepresentation.

In the event that a new pet is acquired during the Policy Period, the Insured must notify Furguard within a reasonable period for underwriting consideration and endorsement, if coverage is desired.

3.5 Compliance with Applicable Laws

The Insured shall ensure that the pet is:

- Registered with local municipal authorities where required;
- Vaccinated in accordance with applicable veterinary and statutory requirements;
- Maintained in compliance with animal welfare and public safety regulations.

Failure to comply with applicable legal or statutory obligations may affect coverage under certain sections of this Policy.

SECTION 4: POLICY STRUCTURE

The Furguard Pet Protect Policy has been designed as a modular and customizable insurance solution, allowing Policyholders to select core protection along with optional enhancements based on the specific healthcare and protection needs of their pet.

The Policy structure consists of the following components:

4.1 Base Covers (Mandatory Selection)

At the time of Policy inception, the Insured must select at least one Base Cover. The Base Cover forms the foundational layer of protection under this Policy and establishes the primary insured risk.

The Base Covers may include, but are not limited to:

- Death Due to Accident
- Death Due to Illness
- Hospitalization Expenses
- Specific Illness Cover

The Base Cover determines the principal Sum Insured under the Policy and serves as the reference amount for calculating sub-limits and percentage-based limits applicable to Optional Covers.

Certain Base Covers may be mutually exclusive (for example, Hospitalization Cover and Specific Illness Cover may not be selected simultaneously), and the applicable selection will be clearly reflected in the Policy Schedule.

No Optional Cover shall operate independently unless at least one Base Cover is active under the Policy.

4.2 Optional Add-On Covers

Optional Add-On Covers are supplementary protections that the Insured may choose to enhance the scope of coverage. These covers are not automatically included and shall apply only if specifically selected, underwritten, and mentioned in the Policy Schedule.

Optional Covers may provide:

- Indemnity-based reimbursement (e.g., surgical expenses, OPD costs);
- Fixed lump-sum benefits (e.g., terminal illness benefit, long-term care benefit);
- Percentage-based sub-limits derived from the Base Sum Insured; or
- Defined monetary caps as specified in the Schedule.

Each Optional Cover:

- Operates subject to its own terms, conditions, exclusions, and waiting periods;
- May carry independent sub-limits or deductibles;
- May be subject to breed-based, age-based, or medical underwriting criteria.

Selection of Optional Covers does not increase the Base Sum Insured unless explicitly stated. All Optional Covers remain subject to the overall Policy limits and aggregate liability provisions.

4.3 Non-Health Benefits

In addition to medical and mortality-related protections, this Policy may include certain non-health or ancillary benefits designed to provide holistic protection and convenience to the Insured.

These may include, but are not limited to:

- Cremation or burial expense support
- Lost or stolen pet coverage
- Show fee protection
- Smart tag or tracking device protection
- Emergency pet boarding allowance

Non-Health Benefits may operate either:

- As indemnity reimbursement based on actual expenses incurred; or
- As fixed benefit payouts subject to predefined limits.

These benefits are subject to independent triggers and documentation requirements and shall not automatically extend to medical claims unless specifically provided.

4.4 Liability Extensions

The Policy may also provide liability-based coverage where the Insured becomes legally liable for bodily injury or property damage caused by the Insured Pet to third parties.

Liability Extensions:

- Operate on an indemnity basis;
- Cover legally enforceable liabilities only;
- May include defense costs, legal fees, and settlement amounts within the specified limits;
- Are subject to territorial limits and jurisdictional provisions of this Policy.

Liability coverage shall apply only when explicitly opted and reflected in the Policy Schedule.

4.5 Sub-Limits, Deductibles, and Aggregate Limits

Each cover—whether Base, Optional, Non-Health, or Liability—shall be subject to:

- The Sum Insured stated in the Policy Schedule;
- Any applicable sub-limits (expressed as fixed amounts or percentages);
- Deductibles or excess amounts, if applicable;
- Waiting periods;
- Annual aggregate limits per Policy Period.

Where a sub-limit applies, Furguard's liability shall not exceed the lower of:

1. The actual admissible expense incurred;
2. The applicable sub-limit; or
3. The remaining available Sum Insured.

4.6 Policy Schedule as Governing Document

The Policy Schedule shall specify:

- The selected Base Cover(s);
- The Optional Add-On Covers chosen;
- Applicable Sum Insured;
- Sub-limits and deductibles;
- Waiting periods;
- Endorsements and special conditions.

In the event of any ambiguity, the Policy Schedule shall prevail over the general wording to the extent of such selection.

4.7 Modular and Flexible Design

This Policy is intentionally structured to provide flexibility to the Policyholder. However:

- Coverage applies strictly to the selected modules;
- Unselected covers shall not be deemed included;
- Any modification during the Policy Period requires endorsement and underwriting approval.

No benefit shall be payable under any section unless expressly incorporated in the Policy Schedule.

SECTION 5: BASE COVERS (DETAILED WORDING)

5.1 Death Due To Accident
If during the Policy Period the Insured Pet dies as a direct and sole result of an Accident, Furguard shall pay the Sum Insured as specified in the Schedule.
