# Pet Wellness

Making pet healthcare easy for pet parents

# 1 Wellness Plan

# Everything Covered

## India's best pet wellness plan : Built by pet lovers, for pet lovers.

India's pet community is growing rapidly but it comes with it's own challenges:

- Vet bills in tier-1 cities are rising steeply, often **₹10,000–₹25,000 per visit**
- Most pet parents are unprepared for sudden emergencies
- Less than **1% of Indian pets are insured**

**We created Furguard to change that.**
Furguard was created with a simple belief — every pet in India deserves quality healthcare without financial stress.

Born from the lived experiences of pet parents and developed in collaboration with veterinary professionals, animal welfare advocates, and technology builders, we're building a smarter safety net for pets.

From everyday consultations and diagnostic tests to unexpected illnesses and emergencies, our plans are designed to simplify care and remove uncertainty. No complicated processes. No confusion. Just protection you can depend on.

We're working toward a future where 1 million Indian pets are covered and cared for by 2030.

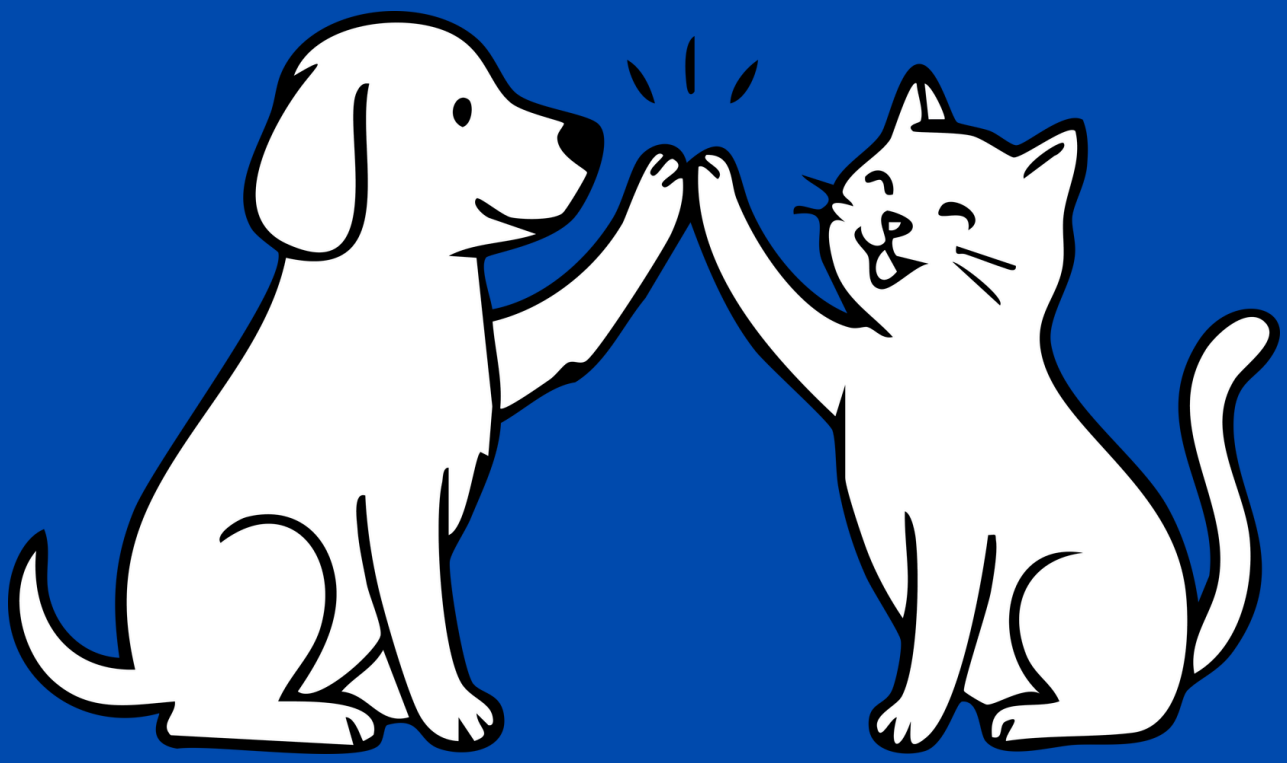
# Does my pet qualify for the plan?

Coverage can be given to pets which are at least **2 months old** of age and belonging to any age and breed.

| Pet Type | Entry Age | Exit Age |
|---|---|---|
| Dog | 2 Months – 15 Years | 16 Years |
| Cat | 2 Months – 16 Years | 18 Years |



# All surgeries are covered 100%

**Surgical & Orthopedic Protection**

When your pet requires surgery at a licensed veterinary clinic or hospital, we take care of the eligible treatment costs — up to the coverage limit you've selected in your policy.

Non-surgical fractures? **Covered too.**

If your pet suffers a fracture that can be treated without surgery, the associated medical expenses are included within your plan.

**Before and after care matters.**

We also support expenses linked to the same approved surgical claim, including:

- Consultations, diagnostics, and medications up to 7 days prior to surgery.

- Follow-up visits, tests, and prescribed medicines for 15 days after surgery.

All eligible expenses are settled within the total sum insured under your policy.

# All OPD & In-Patient Covered 100%

## In-Patient Care Coverage & OPD

If your pet needs to be admitted to a veterinary hospital due to a covered illness or accidental injury, we reimburse eligible hospitalization expenses — provided the stay exceeds 24 hours and falls within your selected policy limits.

**What this protection includes:**

- In-patient treatment during the active policy period
- Coverage subject to your overall sum insured and a ₹2,500 per day room limit
- Hospitalization for tick fever, aligned with the same daily cap.

**Exclusions**

This coverage does not extend to:

- Admissions or procedures unrelated to illness or accidental injury
- Harm resulting from abuse, intentional injury, or neglect
- Non-medical or administrative expenses
- Injuries arising from racing, commercial guarding, or similar high-risk activities
- Elective spaying or neutering (unless medically necessary due to complications)
- Dental cleaning, scaling, or related procedures
- Pregnancy, delivery, breeding-related costs, or grooming
- Hospital stays shorter than 24 hours.

**All claims are assessed in accordance with your selected coverage and policy terms.**
